

Marketing Planner

Quick Start Guide for Team Members

For: Duaa, Ms Sadia, Dr Ahsan, & team • 5 minutes to read • iPhone friendly

1. Open the app

On your iPhone or laptop, open Safari or Edge and go to:

```
https://anameen123.github.io/marketing-planner/marketing_schedule_FINAL4.html
```

Pro tip — add it to your iPhone home screen:

1. Open the link in **Safari** (not Chrome)
2. Tap the **Share** button (square with up-arrow at the bottom)
3. Scroll down and tap "**Add to Home Screen**"
4. Tap **Add**

Now you have a one-tap app icon — opens full-screen with no browser bar.

Bookmark on laptop: press `Ctrl` + `D` after the page loads.

The sign-in screen

2. Sign in

Every visit is a step closer to the next

Immediate Care Centers of Texas

 **Sign in with Microsoft**

or sign in with your work email

EMAIL

dkhan@wcgtx.com

PASSWORD

••••••••

Sign In

For your security, Microsoft will verify your password on their page.
Multi-factor authentication may also be required.

Enter your work email + Outlook password

You have **two ways** to sign in. Pick whichever is faster for you:

1. **Sign in with Microsoft** button at the top — opens the standard Microsoft pop-up where you enter your work email and password.
2. **Email + Password** fields below — type your email and Outlook password directly. Microsoft will verify them on their secure page.

Use the same email + password you use for Outlook:

- Duaa, Dr Ahsan, Ahmed → your @wcgtx.com email
- Ms Sadia → your @frisco-er.com email

Approve the phone prompt if you have Microsoft Authenticator — 2-factor login is required by company policy.

3. After signing in — the Home screen

You land on the **Home** tab. You'll see:

- Your **name & circle avatar** in the top header
- A "**Good afternoon/morning**" welcome card with today's date
- Any **announcements** from the admin (red banner)
- Bottom navigation with all the main tabs
- **Sign out** button next to your name when you're done

Live sync: everything you do here syncs automatically to the whole team within 5 seconds. No "save" button needed.

Your home screen (Duaa shown)

4. The main tabs

Tab	What you do here
Home	Today's snapshot + announcements + welcome
Dashboard	The planning calendar — click any day to see/add visits
Status	List of clinics you've built relationships with (your CRM)
Businesses	The bank of clinics, MVA attorneys, and outreach orgs
Finances	Your spending log + budget remaining + tier info
Team	Team chart + your personal stats

Member view: you can **see** everything the team does, but you can **edit only your own visits**. The pencil icon (✎) appears next to things you can change.

5. Schedule a visit

- 1 Tap the **Dashboard** tab at the bottom.
- 2 You see a calendar. Days with planned visits show a small number badge and a colored dot.
- 3 Tap the **day** you want to schedule. The day opens showing 6 visit slots.
- 4 In any empty row, type the clinic name (autocomplete will suggest from the bank), or tap "+ Add Visit" for a new one.
- 5 Your name auto-fills as the marketer. You're scheduled.

To add a visit for a clinic that doesn't exist yet: add it to the **Businesses** tab first, then come back to the Dashboard to schedule.

Calendar — dots & numbers show planned visits

6. Mark a visit complete & log spending

The day view — your visits in a list

After your visit, come back and update the row:

1. Open the day on the Dashboard (tap the day cell)
2. Tap the **pencil** icon next to your visit
3. Set status: **Completed** / **Postponed** / **Canceled**
4. If you spent money (lunch, gift, cupcakes...), tap **Log Spending** → enter amount + what for
5. If you established a relationship, set the **Lead level**: L1 (Contact) → L2 (Receptionist) → L3 (Office Manager) → L4 (Owner / Decision-maker)

Spending limits: the app shows your per-visit cap and remaining quarterly budget. Stay within them — no admin approval needed.

Important: mark visits **the same day** if you can. The team uses your real-time updates to plan their week.

7. Browse clinics, MVA, & outreach

The **Businesses** tab is your **bank of targets** — every clinic, attorney firm, and community org we know about.

- Three sub-tabs: **Clinics**, **MVA Attorneys**, **Community Outreach**
- Use the search box to find one by clinic or doctor name
- Filter by **Lead Status**, **Area** (city), or **Specialty** (PCP, Pediatrics...)
- Each card shows: doctor name, specialty, lead status, tier (Bronze / Silver / Gold / Platinum), and referrals this period
- Tap "+ **Set Lead**" on a card to update your relationship level inline

Need to add a brand-new clinic? Tap the purple "+ **Add Clinic**" button at the top of the list.

Tier badges: Bronze / Silver / Gold / Platinum show how many referrals a clinic has sent us this period. Higher tier = bigger spending cap when you visit.

595 clinics, searchable & filterable

8. Sign out when you're done

Tap "**Sign out**" at the top-right of any page. You're signed out immediately — no waiting, no extra pop-up.

On a shared device? Always sign out before handing it back. On your personal phone, you can stay signed in — the app remembers you for next time.

If something goes wrong

What you see	What to do
"You're not authorized"	Your email isn't on the team list yet — tell Mahmoud to add you.
"This app needs admin approval"	IT hasn't granted consent in our tenant — tell Mahmoud, he'll handle it.
Spinning / won't load	Check your internet. Pull-to-refresh on iPhone, or press Ctrl + R on laptop.
Sync badge shows red	Tap it once — the app will try to reconnect. If that doesn't help, refresh the page.
Wrong display name	Ask Mahmoud — admins can rename you via the Team tab.
Lost / forgot password	Same password as Outlook. Reset via Microsoft if needed: passwordreset.microsoftonline.com

Questions? Ask Mahmoud.

This app is brand-new — your feedback shapes how it evolves. Anything that feels slow, confusing, or missing — tell Mahmoud during the meeting or text him anytime.

Every visit is a step closer to the next referral. • Wellness & Care Group of Texas, Inc.
